INSIGHT WORKS

GRAPHICAL SCHEDULER

for Microsoft Dynamics 365 Business Central

Visualize each workstation, enabling managers & staff to manage production scheduling more effectively.

Transform your Production Management with Graphical Scheduler from Insight Works. Seamlessly integrated within Microsoft Dynamics 365 Business Central, Graphical Scheduler revolutionizes how you visualize, manage, and optimize your production schedules.

Graphical Scheduler turns complex production scheduling into a simple, time-efficient task with an intuitive drag-and-drop interface, one-click access to detailed operation data, and flexible calendar views. Stay in control of your production line, make informed decisions, and maximize productivity, all while saving valuable time and resources.

Customize and Conquer with Product Configurator

- **Superior Operational Efficiency:** Streamline your production processes with our intuitive, easy-to-use drag-and-drop interface, leading to optimized workflows and increased throughput.
- **Informed Decision-Making:** With detailed operation information available at a click, make data-driven decisions that enhance productivity, manage resources better, and improve your bottom line.
- **Seamless Operation Management:** Track and manage related operations effortlessly with our unique operation highlighting feature, providing a comprehensive overview of your production line in one screen.
- **Efficient Time Management:** Our built-in filters facilitate swift identification of specific operations, reducing time spent searching and enabling staff to focus on core tasks.
- **Optimal Resource Allocation:** The customizable color-coding rules allow quick status identification, ensuring resources are utilized where needed most, improving production efficiency, and reducing potential bottlenecks.

Typical Users:

Production Managers overseeing manufacturing, ensuring smooth processes. Graphical Scheduler aids visual tracking, enhancing efficiency.

Operations Supervisors manage specific areas in manufacturing. Graphical Scheduler offers granular insights for quick adjustments.

Supply Chain Managers coordinating inventory and supply chains. Graphical Scheduler aligns production with broader goals.

Warehouse Managers optimizing tasks and resources in warehouses. Warehouse Pick Assignment balances workload.

ERP Consultants and System Administrators tailoring scheduling to business needs. Graphical Scheduler suits unique requirements.

Project Managers aligning production with project timelines. Graphical Scheduler ensures timely delivery and resource use.

GRAPHICAL SCHEDULER

Drag-and-Drop Interface
Provides an effortless way to schedule and rearrange operations. This interactive feature allows for real-time production scheduling adjustments, catering to your dynamic production environment.

One-Click Detail Access
Immediate access to critical operation information like production order number, routing number, and descriptions. This feature enhances visibility and allows for more informed decision-making.

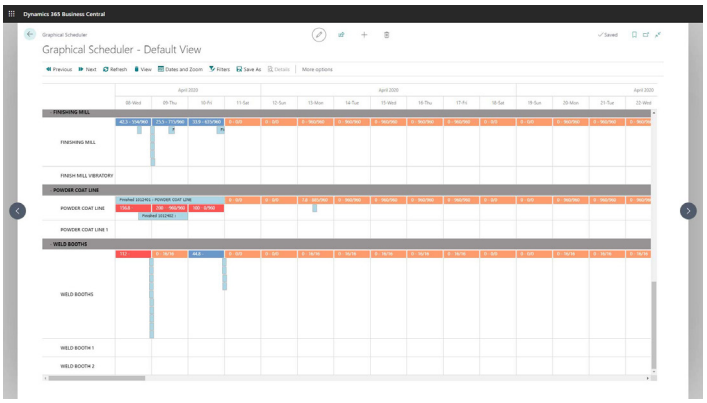

Operation Highlighting
Quick visualization and identification of related operations. This feature provides a comprehensive picture of production workflows in a single screen, enhancing understanding and control of your operations.

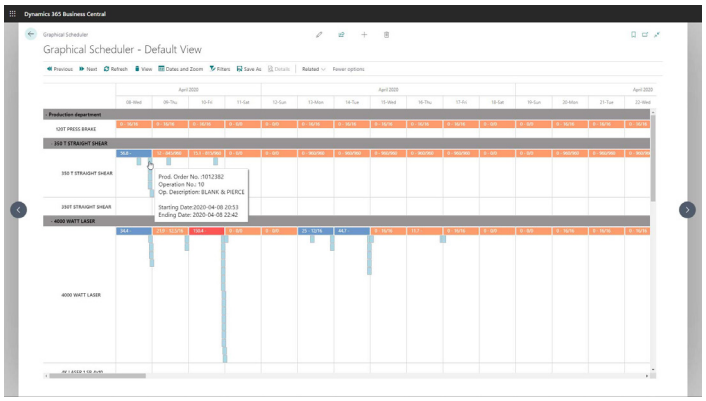

Built-in Filter
A powerful feature that quickly identifies specific operations based on keywords or production order numbers. This speeds up locating operations in a large and complex production schedule.

Customizable Color Coding
Set your rules for visual representation of operation statuses. This feature provides a quick overview of your operations, identifying potential issues before they escalate.

Flexible Calendar Views
Choose from monthly, weekly, or daily layout options to suit your preference. This interactive feature allows intuitive drag-and-drop schedule adjustments, offering maximum convenience and flexibility.
