INSIGHT WORKS

DYNAMIC SHIP

for Microsoft Dynamics 365 Business Central

Easily add carrier integration, real-time shipping rates, package management and shipment tracking to Business Central.

Dynamic Ship is the ultimate shipping solution for SMBs, seamlessly integrating with Dynamics 365 Business Central to streamline shipping operations. This powerful app simplifies package management, real-time rate shopping, and carrier integration with hundreds of parcel, LTL, and FTL carriers.

Featuring a user-friendly interface, handheld scanning support, and real-time shipment tracking, Dynamic Ship ensures accurate and efficient shipping processes, reducing costs and enhancing customer service for your business.

Customize and Conquer with Product Configurator

- **Streamlined Workflow:** Dynamics 365 integration and a user-friendly interface simplify workflow and minimize errors.
- **Cost-Efficiency:** Real-time rate shopping and dimension-based costs enable affordable shipping and prevent unexpected expenses.
- **Visibility & Control:** Package management, tracking, and detail capture enhance traceability, aiding decision-making and customer communication.
- **Data-Driven Decisions:** Dynamic Ship Analysis app provides insights to optimize shipping operations effectively.
- **Enhanced Customer Experience:** Real-time tracking, branded pages, and improved visibility build trust and customer satisfaction.
- **Up-to-Date Carrier Info:** Real-time carrier service information and rates support informed shipping decisions.
- **Integrated Logistics:** Major carrier integration and FTL/LTL support streamline logistics for diverse shipping needs.
- **Administrative Efficiency:** Simplified Bill of Lading creation reduces administrative tasks, ensuring operational efficiency and accuracy.

DYNAMIC SHIP

Real-time Rate Shopping
Dynamic Ship allows browsing real-time shipping rates from various carriers, helping businesses find cost-effective options and reducing expenses.

Package Management & Tracking
Offers a comprehensive package management system with real-time tracking, improving customer service and control over shipments.

User-friendly Interface
Supports handheld scanning, enhancing shipping process accuracy and efficiency, and reducing errors.

Reliable Carrier Info & Rates
Provides up-to-date carrier service information, enabling informed shipping decisions.

Shipment Tracking & Branded Pages
Enhances customer experience with real-time tracking and professional branded pages.

Accurate Shipping Fees
Calculates fees based on actual package dimensions, avoiding unexpected costs and increasing accuracy.

Package-level Details
Captures details like serial numbers and lot numbers, improving shipping accuracy and traceability.

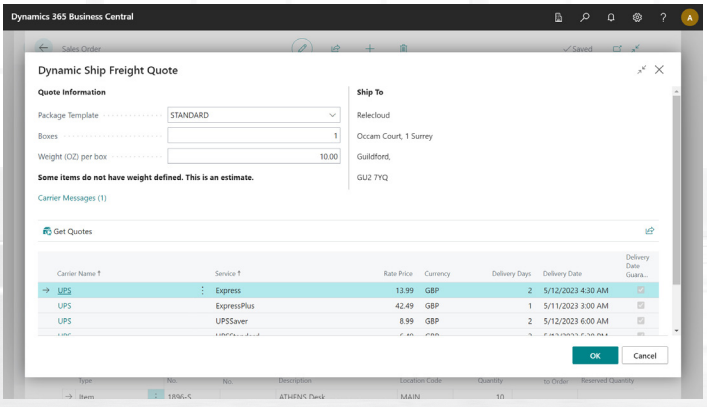

Shipping Analytics
The Dynamic Ship Analysis app provides data-driven insights for shipping operations optimization.

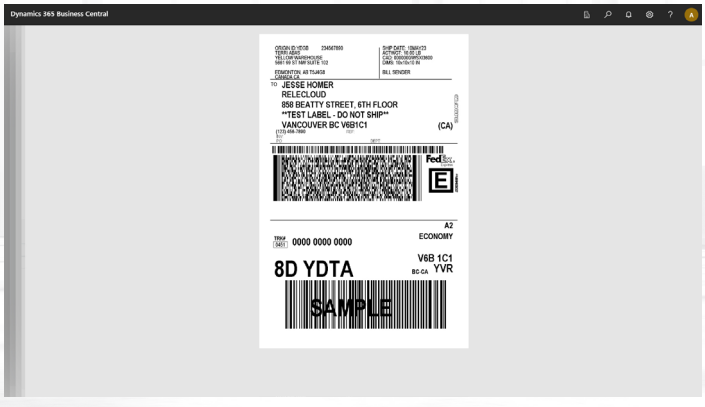

Major Carrier Integration
Integrates with major domestic and international carriers, simplifying logistics and shipping processes.

FTL and LTL Support
Offers Full Truckload and Less-than-Truckload support, streamlining logistics operations.

Simplified Bill of Lading Creation
Reduces administrative work and ensures accurate documentation with simplified Bill of Lading creation.
